

## Ramset TS60P Powder Actuated Lightweight Universal Strip Cartridge Tool

### Easy to use, cordless and efficient

The TS60P is a reliable strip load tool with power adjustment. It has high power and is designed for short pin repetitive fastening of metal fixtures to concrete.

### Product Advantages

- Fast - single shot semi-automatic tool with auto extraction and indexing of charge during retraction of piston
- Safe - trigger mechanism does not engage until nail guide is fully depressed
- Over 70 power level settings
- Universal piston, user does not have to change the piston when fixing into different substrates
- Lightweight allowing ease of use overhead and has in-built thermal insulation to improve operator comfort
- "Twist-Lok" system making it one of the easiest tools to clean and maintain
- Flexibility - the TS60P has a 60mm fastener capacity
- Reduced width front end for fixing into narrow channel (20mm width)
- A more powerful tool only requiring green and yellow cartridges in most cases

### Kit Contains

Ramset TS60P, safety goggles to EN166:B, cleaning cloth, cleaning brushes, lubricating oil, piston removal rod, spall shield and instruction manual

### Substrates

- Concrete
- Steel
- Masonry

### Tool Specification

Weight	2.2kg
Overall length	335mm
Impact force	300J
Power levels	Adjustable / 70 settings
Energy	10 load strip green, yellow and red
Operation	Semi automatic
Nail capacity	up to 60mm

### Applications

- Fixing timber to concrete and steel
- Fixing profiled steel decking to steel
- Fixing drywall track systems to concrete and steel
- Fixing fire protection systems to steel
- Threaded pin applications to steel
- Fixing frame clamps to structural steel
- Fixing brick ties to concrete, steel and masonry
